E.P.I.C. APPROACH TO HAZARDOUS AREAS

A specialist in extreme environments.

Bronswerk Alscott specializes in the design & manufacture of fully automated HVAC & pressurization systems that perform in the most corrosive and hazardous onshore and offshore environments.

Engineering, production, installation and commissioning, all performed by an experienced, qualified partner in strict adherence to an extensive quality assurance program.

Built to spec.

Bronswerk Alscott is a custom fabricator with a proven record of meeting the most demanding of specifications in the Renewable Energy and Oil & Gas industries.

RENEWABLE ENERGY: BRINGING EXPERIENCE TO NORTH AMERICA

Our group offers extensive experience with Renewable Energy developments, including Offshore Wind Farm High Voltage Stations. HVAC is critical to continuous operation and Bronswerk Alscott uses the highest standard of durable, reliable equipment to minimize maintenance and down time.

Notable Projects

Netherlands

Offshore Wind Farm Luchterduinen

Germany

OHVS Borkum Riffgrund 2 OHVS

Quality of people and process.

Bronswerk Alscott operates in adherence to its ISO 9001:2015 quality program, which is audited annually. Quality is also evident in our teams of engineers, fabricators, and technicians, who thrive in finding optimal solutions for extreme environments that will stand the test of time.
